

### Qualifications

LEED Accredited Professional, 2002  
Associate AIA, 1995-present  
PE, Washington, 1991-present  
Master of Architecture, University of  
Washington, 1994  
Bachelor of Science in Mechanical  
Engineering, University of  
Massachusetts, 1979

### Affiliations

Vice Chair, U.S. Green Building Council,  
2003-2006  
Co-Chair, LEED Steering Committee,  
1996-2001

### Selected Speeches and Presentations

Greenbuild 2007, 2005, 2004  
AIA Convention 2007, "Deconstructing  
Sustainable Interiors"  
West Coast Green, Keynote Speaker,  
2007, 2006  
AIA Convention 2006, "The Multiplier  
Effect, PNC & LEED"  
Ecobuild America 2005, Keynote  
"Get to Green", Instructor,  
2003-present

### Previous Experience

Mechanical Engineer, John Graham  
Associates  
Project Manager, Capital Planning &  
Facilities, Middlesex Cnty, MA  
Aerospace Engineer, AVCO

## Tom Paladino, President PE, Assoc AIA, LEED® AP

A nationally recognized leader in sustainability, Tom Paladino is the founder and president of Paladino and Company, an award-winning green building consulting firm based in Seattle, WA. Drawing upon his technical expertise in both architecture and engineering, Tom has brought innovative ideas, a building science knowledge and perspective, and a proven process for design integration to the nearly 300 green and LEED projects he has consulted on. From concept and system design assistance, to cost/benefit evaluation and analysis, Tom contributes inspiration, expertise and implementation-focused tools to each project team.

Credited with creating the widely adopted Eco Charrette method, Tom is also a significant contributor to the development of the LEED® Green Building Rating System. His firm conducted the LEED Pilot Program, authored the LEED 2.0 Reference Guide, and is leading the development of LEED v3.0. The firm continues to serve as certification reviewers on behalf of the U.S. Green Building Council. Tom served as the Vice Chair of the USGBC Board and co-chair of the LEED Steering Committee. As a former chair of the Seattle AIA Committee on the Environment, Tom helped found the City of Seattle Sustainable Building Task Force, a regional initiative that ultimately led to the adoption of LEED by the City of Seattle, the first city in the country to do so.

### Technical Specialties

Concept design, visioning and strategy development, executive presentations, green proforma and life cycle cost analysis, daylighting, heating and cooling system concept design (mechanical and non-mechanical), team integration and project management

### Selected Projects

- PNC Firstside Center, Pittsburgh, PA - LEED Silver
- 3 PNC Plaza, Pittsburgh, PA - Targeting LEED-CS
- HSBC Chicago North Headquarters, Chicago, IL - Targeting LEED Gold
- J. Richard Carnall Center, PFPC Worldwide Headquarters, Wilmington, DE - LEED Gold
- Guam Employees Federal Credit Union Headquarters, Mongmong, Guam - Targeting LEED Silver
